## Course Description
## Fees & Schedules

# Level II
# MemGram® Processor Certification

Level II MemGram® Processor Certification integrates all components of the MemGram® and provides instruction on how to conduct the Processing Session. A practical outline, study guide and numerous processing tools efficiently and effectively serve to increase knowledge and understanding of the process. Detailed case studies further enhance the learning experience.

Level II defines the parameters, potentials and purpose of consciousness. This study recognizes the diversity and sacred aspects of reality that influence our physical structure, attitudes, perceptions, beliefs, intentions, abilities and actions. The course objective is to deepen our understanding of Life Energy and its design to profoundly reconfigure our sense of self. You will learn how to align your experience with your Mind's Desire.

This course explores, as does the theory of relativity, that reality is formulated and captured in patterns, and is based on the most fundamental knowledge there is - mathematics. As a Certified MemGram® Processor you will have access to this most advanced scientific analytical method to reveal, resolve and release patterns that disrupt the inner relationships and structural harmonic frequencies of the body (mass), mind (concepts – $c^2$) and spirit (energy).

Certified MemGram® Processors have privileged access to a sacred and profound truth that validates the act of knowing and facilitates the shift to being, fulfilling the Soul's inner call of consciousness.

| **Level 2 Certification** | **$995.00** |
|---|---|
| * Course materials provided in digital format include: Course manual, study guide, practitioner manual, CD media kit, audio presentations and DVD class presentation | |

* Course Materials provided with paid tuition

Topics of Interest

- What makes MemGram® Processing different from stress management protocols
- What are the correlations and differences between MemGram® Processing and Counseling
- What influences and effects do emotions have on our physical, mental and spiritual being
- How are experiences energetically programmed into the cellular memory
- What does cellular memory have to do with fulfilling our life purpose
- What is POV and how does it affect my spiritual growth
- Why is MemGram® Processing considered sacred
- How to identify the “true” cause of stress
- What is “conflict energy” and does it have a physiological affect
- What is “toxic residue”
- What is genetic legacy
- How are emotions linked to specific organs and their functions
- Do emotions have an impact on DNA
- How is disease stored as a Trauma
- What are the inherent life energy frequencies of the 24 organ system
- What is “resonant frequency”
- How can we measure electro-magnetic energies within the body
- What is a “heat imprint”
- What relationship does stress have with radiation
- What is the Stress Efficiency Zone
- What is “PPCE” and what role does it play in perpetuating a stress pattern
- What are “Stress Pattern Factors” and what information do they provide
- What is the difference between “Stress” or “Metabolic” origins
- What is a “Trauma Scenario”
- What are the benefits of “Living Your Soul Pattern”
- How do I identify and become my “True Self”
- How to be successful as a Certified MemGram® Processor
